

RAISEonline 2015 Summary Report  
Conisbrough Ivanhoe Primary Academy

Unique Reference Number (URN)	137765
DfE Number	3712117
Local Authority	Doncaster

Based on the following datasets for 2015:-

Key Stage 1:	unvalidated data
Key Stage 2:	unvalidated data

Production date : 26 November 2015

# Important

The aim of the summary report is to help you see how effectively a school is performing in terms of the achievement, attendance and behaviour of its pupils. The report is made available to schools to help with their self-evaluation and planning to raise standards, and is used by inspectors, together with the new Inspection Dashboard, to inform their planning for an inspection.

The Early Years Foundation Stage Profile report is provided for use in the context of evaluating children's readiness to start Year 1 in terms of their development. Data are provided for all of the early learning goals to aid schools and inspectors identify any areas on which teaching may not have placed sufficient focus. The report is for groups, rather than at interactive pupil level, to provide an overview of development needs on entry to Year 1. The report currently displays 2014 data. Data for 2015 will be published in RAISEonline with the Key Stage 2 validated release.

## Changes for 2015

On 1 September 2014 a range of SEND reforms were introduced as part of the Children and Families Act. Following the changes to SEN school census codes, RAISEonline will now show data for no SEN, SEN support (which replaces School Action and School Action Plus) and SEN with a statement or an Education, Health and Care (EHC) plan.

The definition of a disadvantaged pupil has changed to reflect changes to the conditions of funding for the pupil premium in 2014-2015. Pupils will be defined as disadvantaged in RAISEonline if they are recorded as:

- \* eligible for Free School Meals (FSM) in the last six years or
- \* looked after continuously for one day or more or
- \* adopted from care.

The Year 2 phonics report now shows the percentage of pupils that have reached the expected standard by the end of Year 2, whether it was in Year 1 or in Year 2. A new report is available for those pupils who did not reach the expected standard in phonics at the end of Year 1 or who have taken the screening check for the first time in Year 2. This report is in the format of a transition matrix and shows the Year 1 marks achieved alongside the Year 2 outcomes to which pupils have progressed. A three year trend phonics report has also been introduced.

The exclusion reports now contain additional data on repeat exclusions. They show the percentage of pupils with more than one fixed term exclusion during the academic year.

## Shading

Shading in the Closing the gaps reports is applied only for 2015 results and only to the gaps between results for disadvantaged pupils in the school and other pupils nationally. It is intended to identify gaps of educational importance. At Key Stage 2, it is applied only to the table for expected, and more than expected, progress from each Key Stage 1 starting level. Where the school's percentage of disadvantaged pupils falls below the national percentage for other pupils by an amount equivalent to one or more pupils, the difference is shaded red. Where the school's percentage of disadvantaged pupils is equal to or above the national percentage for other pupils, the difference is shaded yellow. At Key Stage 1, shading is applied to the table for average point scores (APS). Where the disadvantaged group's APS is at least four points (equivalent to two sublevels) less than the national APS for other pupils, it is shaded red. Where the disadvantaged group's APS is equal to or above the national APS for other pupils, it is shaded yellow.

Elsewhere in RAISEonline, green and blue shading are used to demonstrate a statistically significant difference between the school data for a particular group and national data for the same group. However, the performance of specific groups should always be compared with the performance of all pupils nationally. Statistical significance does not necessarily correlate with being educationally significant.

Further information and guidance on the shading and the methodology used to calculate other measures presented in RAISEonline can be found at <https://www.raiseonline.org> in the Library section in the folder 'How Ofsted and DfE analyse your data'

## Other information

The FAQ section of the library includes a wide range of common questions. Further information is also available within each interactive report at the 'Help?' button near the top right of the screen. We also recommend that you read RAISEonline Latest news regularly to keep up to date.

The Key Stage 1 unvalidated reports reflect the data received by the Department for Education (DfE) by the collection deadline. Any data submitted after this deadline will be incorporated within the final datasets if these are published.

The Key Stage 2 unvalidated reports do not reflect the outcome of amendments requested by schools during the annual performance tables data checking exercise run between 7 September and 18 September 2015. Accepted amendments from the checking exercise will be included in the DfE Key Stage 2 performance tables being published in December 2015 and the subsequent release of validated data in RAISEonline.

We are not able to make ad hoc changes to published data in RAISEonline. The website provides interactive reports, accessed via the 'Tree view' tab. The interactive reports allow access to pupil level data that underlie the measures contained in the summary report and a range of other analyses. If you think your measures are wrong, please first check these underlying pupil list reports. After this step, if you think there is an error in the measures due to a miscalculation rather than incorrect data please use the 'Contact us' facility on RAISEonline <https://www.raiseonline.org> or email [enquiries@ofsted.gov.uk](mailto:enquiries@ofsted.gov.uk).

The 'School's own data' section of RAISEonline contains a copy of the underlying data that a school's RAISEonline administrator may amend. You will be able to see if analyses for your school would change and use these in discussions with school improvement partners and inspectors. Note that the changes will apply to the school's own copy of the data only; the published data in RAISEonline will remain unaffected.

The summary report is divided into the following sections

1. Context
2. Absence and exclusions
3. Prior attainment (for schools with Key Stage 2)  
Early Years Foundation Stage Profile
4. Attainment in Key Stages 1 and 2
5. Progress (Value added then Expected progress, for schools with Key Stage 2)
6. Closing the Gaps

# Important Information for Governors E' Primary

Effective governance is an intrinsic part of good leadership. An increasingly autonomous school system needs informed governors who know their schools well and hold leaders to account for the achievement, behaviour and safety of all pupils in their school, including the most able and disadvantaged pupils, those for whom the pupil premium provides support.

The purpose of RAISEonline is to support school self-evaluation and to inform the school inspection process. Key information from it is summarised in Ofsted's new Inspection Dashboard, which governors should look at first to gain a broad overview before looking at the more detailed charts and tables in this RAISEonline summary report. The Inspection Dashboard shows three-year trends for all pupils and key groups, including disadvantaged pupils, and identifies strengths and weaknesses.

This RAISEonline summary report contains tables and charts that compare school and national figures. The figures allow governors to ask themselves questions that are essential for evaluating pupils' performance. Such questions for each set of tables are shown in the lists below. Examples for progress tables are: Is progress above average? How much is progress rising or falling? In which subjects is progress strong/weak? Governors can then follow up with challenging questions to leaders.

Governors could ask leaders follow-up questions such as these:

- \* Why?
- \* How might curriculum provision, teaching or leadership and management be linked to it?
- \* How do performance/absence/exclusions in all current year groups compare with this?
- \* What actions are being taken to address this in all year groups? What is the strategy for improving this? How do improvement plans include and emphasise this? What objectives and targets have been set?
- \* How well are all staff involved with improving this?
- \* What evidence do you have of the impact of these actions?
- \* Which uses of the pupil premium are being effective in raising progress and attainment?

## Attainment and progress sections

The tables and charts showing pupils' achievement are in two separate sections: attainment and progress. The four different types of achievement data are:

### Attainment

- \* threshold data, which show the proportion of pupils that meet a particular standard
- \* average attainment of pupils, shown as an average point score (APS)

### Progress between Key Stages 1 and 2

- \* expected progress and more than expected progress data, which show the proportions that make the progress expected by the government (two levels), or more
- \* value added (VA), which is an aggregate of each pupil's progress in relation to the progress of all pupils nationally with similar prior attainment

Expected progress is calculated within each subject, for example, for reading it is based on the difference between a pupil's Key Stage 1 and Key Stage 2 attainment in reading. Value added uses each pupil's average Key Stage 1 score in reading, writing and mathematics combined as its baseline for calculating VA in a single subject, such as mathematics, and overall VA for mathematics, reading and writing combined.

In many tables, green or blue shading is used where school results are statistically significantly above or below the national figure. The part of the RAISEonline library to which the public has open access contains details of how figures are calculated.

Tables that are particularly useful for governors

Tables that governors might find particularly useful to look at are highlighted by the letter G in the top right corner. Governors may find it most useful to look first at the tables summarising three year trends in progress, including those showing gaps between disadvantaged pupils and others nationally, to show how well the school is performing compared to others whose pupils have similar prior attainment. Governors may then find it useful to look at three year trends in attainment, before moving onto details for groups and the tables showing absence, exclusions and context. This is the order of tables shown in the Inspection dashboard. In contrast, the lists of tables below do not follow this sequence. Instead, they are clustered into types of table and are listed broadly in the order in which they appear in the summary report, to assist in locating them. Descriptions of the tables highlighted with the letter G and their numbers are below.

## An overview of key data

These four sets of tables provide a quick overview.

### 1. Three-year and longer trends in key measures for all pupils:

Basic characteristics of your school (Table 1.1.1)

The Key Stage 1 prior attainment of pupils in each year group (Table 3.1.1) (Note that prior attainment is the best indicator of future performance.)

Absence and exclusions (Table 2.1.1)

The percentage of pupils achieving a good level of development in the Early Years Foundation Stage Profile (tables at the front of the attainment section, currently for 2014) (A good level of development is achieving at least the level expected in each early learning goal in the following areas of learning: communication and language; physical development; personal, social and emotional development; literacy; and mathematics.)

The percentage of pupils that met the expected standard in the phonics screening check in Year 1 and by the end of Year 2 (Table 4.1.1)

Key Stage 1 average attainment overall and in each subject (Table 4.2.4)

Key Stage 2 average attainment overall and in each subject (Table 4.3.5) (4.1.5 in junior schools) (Average attainment is given in terms of average point scores (APS), where 6 points represent one level, 15 points are equivalent to Level 2 and 27 points are equivalent to Level 4).

Progress in terms of value added overall and in each subject (Table 5.1.1) (Value added compares each pupil's Key Stage 1 to 2 progress with all pupils nationally of similar prior attainment, assigns a score, aggregates scores to school level and centres them around 100.)

These tables allow governors to ask themselves, and follow up, essential questions such as:

Is absence below average? How much is it diminishing?

Is the proportion of persistent absentees below average? Is it falling?

Is the proportion of pupils with repeat exclusions (two or more in the year) below average?

Is the difference between the proportion with repeat exclusions and the proportion excluded at least once too small? Is it appropriate?

Does the difference between exclusions as a percentage of the pupil group and the proportion excluded at least once show that those with repeat exclusions had a high rate of exclusion?

Are children well enough prepared for Year 1 (have enough achieved a good level of development in the Early Years Foundation Stage Profile?)

Is the percentage of Year 1/Year 2 pupils achieving the expected standard in phonics above the national figure? Is it rising? (currently only 2015 data are available for Year 2)

Is attainment above average? How much is attainment rising?

In which subjects is attainment strong/weak?

Is progress above average (100)? How much is progress rising or falling?

In which subjects is progress strong/weak?

2. Attainment of thresholds for all pupils this year:

Percentage attaining or surpassing each Key Stage 1 level in each subject (Chart 4.2.1)

Percentage attaining or surpassing each Key Stage 2 level in each subject (Table 4.3.1) (4.1.1 in junior schools)

These tables allow governors to ask themselves, and follow up, essential questions such as:

Do enough pupils attain the expected standard (KS1 Level 2, KS2 Level 4)?

Do enough pupils attain high standards (KS1 Level 3 or above, KS2 Level 5 or above)?

Do enough pupils finish Year 6 ready to access the secondary curriculum (attain Level 4B or above)?

3. Progress from different starting points for all pupils this year:

Expected progress in reading from Key Stage 1 to Key Stage 2 (Table 5.2.1) (The progress expected by the government is two levels, such as from Level 2 to Level 4.)

Expected progress in writing from Key Stage 1 to Key Stage 2 (Table 5.2.3)

Expected progress in mathematics from Key Stage 1 to Key Stage 2 (Table 5.3.1)

Comparison of Year 1 and Year 2 phonics outcomes for pupils who did not achieve the expected standard in Year 1 (Table 4.1.2)

These tables allow governors to ask themselves, and follow up, essential questions such as:

Are enough low prior-attainers (Level 1 or below) catching up to reach Level 4, by making more than expected progress?

Are enough of those who reached the expected level (2) at Key Stage 1 attaining the expected Level 4 (expected progress) and reaching Level 5 (more than expected progress)?

Are enough high prior-attainers (Level 3 or above) attaining at least Level 5 (expected progress), and reaching Level 6 (more than expected progress)?

Do the overall percentages making expected progress (on bottom row of the table) meet the progress part of the floor standard (in 2014, 94% in reading, 96% in writing and 93% in mathematics; 2015 standards are published in December 2015)? A school will be below the floor standard if it is below both the attainment and progress elements of the floor standard.

Are enough pupils improving in phonics to meet the expected standard by the end of Year 2?

#### 4. Closing the gaps in achievement between disadvantaged and other pupils

Closing any gaps in progress and attainment between disadvantaged pupils and other pupils nationally is a key focus for schools. The 'Closing the gaps' section at the back of the summary report shows three-year trends in the gaps in progress and attainment between disadvantaged pupils in your school and:

- \* all other (non-disadvantaged) pupils nationally
- \* other pupils in your school.

For Key Stage 2, the four tables show:

- \* expected progress in mathematics, reading and writing from different starting points
- \* progress in terms of value added
- \* average attainment
- \* attainment of thresholds.

For Key Stage 1, the last two tables are shown.

The key table, showing expected progress from different starting points, contains shading for comparisons of the 2015 progress of disadvantaged pupils with national figures for other pupils. Yellow shows school proportions at or above national figures; red shows proportions lower than national by a margin of one or more pupils. At Key Stage 1, shading is used on the average attainment table, with yellow showing 2015 attainment of disadvantaged pupils that is equal to or above the national average for other pupils, and red shading showing where it is below by two-thirds of a level (four points) or more.

These tables allow governors to ask themselves, and follow up, essential questions such as:

Is there a gap between the disadvantaged pupils and other pupils nationally?

If so, how fast is it closing?

How wide are in-school gaps? How quickly are any gaps closing?

#### Tables providing further detail and data for groups

Other tables marked with a G provide data for groups and further detail. The performance of groups should always be compared with the performance of all pupils nationally, also noting the comparison with the particular group nationally.

##### Progress of groups

Expected progress from different starting levels for disadvantaged pupils and others (Tables 5.2.2, 5.2.4 and 5.3.2).

Value added three-year trend overall and this year for subjects (Table 5.1.4)

Scatter plot of value added for each disadvantaged pupil and other pupil (back page)

The value-added table allows governors to ask themselves, and follow up, essential questions such as:

Which groups make the most progress and which make the least progress? How wide is the gap?

Which groups make below average (100) progress?

The scatter plot allows governors to ask themselves, and follow up, essential questions such as:

How does the value added differ for disadvantaged and other pupils, and for different prior attainment?

Is the value added very low for any pupils?

## Attainment of groups

The percentage of pupils achieving a good level of development, and the level of learning and development expected in each early learning goal in the Early Years Foundation Stage Profile (at the front of the attainment section)

Phonics screening check attainment in Year 1 and by Year 2 (Tables 4.1.4 and 4.1.5)

Key Stage 1 average attainment overall and in each subject (Table 4.2.5)

Percentage attaining or surpassing Key Stage 2 Level 4 in each subject and in all of mathematics, reading and writing (Table 4.3.2) (4.1.2 in junior schools)

These tables allow governors to ask themselves, and follow up, essential questions such as:

Do enough children achieve a good level of development in the Early Years Foundation Stage Profile? In which early learning goals is achievement highest/lowest? How ready are children for Year 1 in terms of communication, language, literacy and mathematics? Is children's personal and physical development good enough?

Do enough pupils meet the expected standard in the phonics screening check in Year 1, or by the end of Year 2?

Which groups attain most highly and which have lowest attainment? How wide is the gap?

Does the overall percentage attaining at least Level 4 in all of mathematics, reading and writing meet the attainment part of the Key Stage 2 floor standard (65% in 2014 and 2015)? A school will be below the floor standard if it is below both the attainment and progress elements of the floor standard.

## Inspection

Inspectors will meet with as many governors during an inspection as is possible. They will expect governors to be knowledgeable about the school's own information on the performance of its current pupils. They will also expect governors to be familiar with historic performance data, including the summaries that Ofsted's new Inspection Dashboard presents for their school, and know what the information in them shows about the performance of the school. Inspectors will consider how well those responsible for governance use information to evaluate the performance of the school and to ask challenging questions which help the school to sustain high performance or to improve for all pupils, including disadvantaged pupils. Inspectors will consider the impact of what a school is doing to narrow any gaps in progress and attainment between disadvantaged pupils in the school and other pupils nationally, as well as in the school. The School inspection handbook contains further information about how inspectors evaluate the effectiveness of governance. It also stipulates that inspectors should consider a wide range of data including information provided by the school.

## Context

Table 1.1.1: Basic Characteristics of your school (PriSec2.1)

This shows some key indicators for your school, together with national averages for maintained mainstream Primary schools. The information is based on the January School Census return. The Quintile graphs display the indicators for the current year only. These figures are divided into five intervals, each containing approximately 20% of schools. The interval boundaries are shown below the line, and your school's position in the distribution is indicated by a shaded box.

	2013	2014	2015	20th percentile	40th percentile	60th percentile	80th percentile
<b>Number on roll</b>

## Absence and exclusions

### School Level Absence and Exclusions - 3 Year Trend (Trend\_1)

Table 2.1.1

Latest absence and exclusions data are published here in December for mainstream schools and in Spring for special schools.

Absence indicators are based on 2 terms of data (autumn and spring) for mainstream schools and 3 terms of data for special schools. Exclusions indicators are based on 3 terms of data, so become available later than mainstream absence data. The exclusions data shown are for one year earlier than the absence data.

	2013			2014			2015		
	School	National average for primary schools	Median trendline for school's FSM* level	School	National average for primary schools	Median trendline for school's FSM* level	School	National average for primary schools	Median trendline for school's FSM* level
<b>Absence</b>									
% Persistent absentees- absent for 15% or more sessions	1.4	3.6	4.4	3.0	2.8	3.4	1.3	2.7	3.2

## Prior Attainment

Table 3.1.1: The Prior attainment of pupils at Key Stage 2 (PriorKS2)

The tables below show the prior attainment in terms of Key Stage 1 average points score, of pupils studying in your school in 2014/2015. The national indicators are for maintained mainstream schools (based on matched pupil records from the 2015 National Pupil Database, which is not the same as the average score of all the pupils who took the tests). When interpreting the tables the level of coverage should be taken into account.

### Average points score at KS1

NC Year starting Sept 2014	School	National	Difference	Sig	% Coverage
Year 6	14.4	15.4	-1.0		100.0
Year 5	13.7	15.6	-1.9	Sig-	100.0
Year 4	14.7	15.8	-1.1		100.0
Year 3	13.2	16.0	-2.8	Sig-	100.0

### % by Prior Attainment Band

	School			National		
	Low	Middle	High	Low	Middle	High
Year 6	15.2	75.8	9.1	16.5	58.6	24.9
Year 5	35.1	56.8	8.1	14.7	58.7	26.6
Year 4	20.6	70.6	8.8	12.9	58.5	28.5
Year 3	30.4	65.2	4.3	11.8	57.9	30.3

## Attainment at Key Stage 1

Chart 4.2.1 and Table 4.2.2: Percentage of pupils attaining or surpassing each level at Key Stage 1 by Subject - 2015 (KS1.3)

The charts below show the cumulative distribution of the levels achieved by the school for Key Stage 1. The bars on the graph show the percentage of pupils in the school and nationally who attain the required standard for each level. Statistical significance tests have been performed on the data using a 95% confidence interval, and where the school value differs significantly from the corresponding national value for this group, sig+ or sig- is shown.

**Percentage of pupils attaining each level in reading, writing and mathematics, cumulative distribution**

	Using and applying	0	0	0	0	0					
	Number	0	0	0	0	0					
	Shape, space & measures	0	0	0	0	0					
	Total Number of pupils	0					0				
	School distribution for only those pupils assessed as 'W' in Mathematics	0%					0%				
National distribution for only those pupils assessed as 'W' in Mathematics	78%					17%			N/A		

### Notes

Reading table includes all pupils awarded 'W' in their teacher assessment for Reading with a valid Pscale grade

Writing table includes all pupils awarded 'W' in their teacher assessment for Writing with a valid Pscale grade

Mathematics table includes all pupils awarded 'W' in their teacher assessment for Mathematics with a valid Pscale grade

The total numbers of pupils on Pscals is shown for P4 - P8 and P1i - P3ii. Pupils who have a Pscale in both P4-P8 and P1i - P3ii in a subject will be displayed in P1i - P3ii.

## Attainment at Key Stage 1

## Attainment, Average Points Score at Key Stage 1 : Overall and by Subject (KS1.1Trend)

The following pages provide analysis of pupils' average points scores over the last five years in reading, writing and mathematics.

Table 4.2.4

Statistical significance tests have been performed on the data using a 95% confidence interval, and where the school value differs significantly from the corresponding national value for this group sig+ or sig- is shown below.

Where the school value differs significantly from the previous year, or is shown to indicate the direction of this change.

### Attainment at Key Stage 2

Table 4.3.4: Key Stage 2 Below the Level of the Test Report : Teacher Assessments (KS2.BTL)

Teacher assessments for pupils operating below the level of the tests (B) or reported at level 2 and below in writing (TA).

	Number of pupils reported as "B"	Level 2*	Level 1	P8	P7	P6	P5	P4	P3i/P3ii	P2i/P2ii	P1i/P1ii	
Reading	0	0	0	0	0	0	0	0				
Writing		0	0	0	0	0	0	0				
Speaking					0	0	0	0				0
Listening					0	0	0	0				0
English									0	0	0	
Mathematics	0	0	0						0	0	0	
Using and applying					0	0	0	0	0			
Number					0	0	0	0	0			
Shape, space & measures					0	0	0	0	0			

Key  The subject assessment is not available

This report displays additional information about the teacher assessments of those pupils who were identified as operating below the level of the test in reading and mathematics and coded B. The known teacher assessments are displayed as level 2, level 1 and P scales. Pupils who have a Pscale in both P4-P8 and P1i - P3ii in a subject will be displayed in P1i - P3ii.

P scale assessments for p4 to p8 are not made for English and mathematics

\* teacher assessments higher than level 2 for pupils with a test result of B are capped at level 2 in reading and mathematics.

## Attainment at Key Stage 2

Attainment, Average Points Score at Key Stage 2 : Overall and by Subjects  
(KS2.1Trend)

The following pages provide analysis of pupils' average points scores over the last five years in the National Curriculum core subjects.

Table 4.3.5

Statistical significance tests have been performed on the data using a 95% confidence interval, and where the school value differs significantly from the corresponding national value for this group sig+ or sig- is shown below. Where the school value differs significantly from the previous year, ↑ or ↓ is shown to indicate the direction of this change.

Year		2011	2012	2013**	2014	2015

## Progress Measures Value Added

Table 5.1.2: Key Stage 1 to Key Stage 2 fine grades value added: performance of groups within school - ethnic backgrounds (KS12.VAETH)

This report indicates significance relative to both the national mean of 100 and the national mean for each ethnic group. Statistical significance tests have been performed on the data using a 95% confidence interval and, where the school value differs significantly from the corresponding national values for this group, sig+ or sig- is shown.

	White British	Irish	Traveller of Irish Heritage	Gypsy/Roma	Any Other White Background	White and Black Caribbean	White and Black African	White and Asian	Any other Mixed Background	Indian	Pakistani	Banladeshi	Any other Asian Background	Caribbean	African	Any Other Black Background	Chinese	Any Other Ethnic Group	Refused	Information Not Obtained

Significance from overall national average	Sig+		Sig+	Sig+			Sig+	Sig+			Sig+		Sig+	Sig+	-	-	Sig+		-

The definitions of low, middle, high are based on the Key Stage 1 results attained by pupils on completion of the key stage. Low attaining are those below Level 2 at Key Stage 1 (APS<12). Middle attaining are those at Level 2 at Key Stage 1 (12@APS<18). High attaining are those above Level 2 at Key Stage 1 (APS^ 18).

A dash means that no significance test has been carried out. A blank space means that a significance test has been carried out and the result for school or ethnic group is not significantly different from the national average. Full details of the methodology used for the Value Added measure can be found in the Library.

## Progress Measures Value Added

Table 5.1.4: Key Stage 1 to Key Stage 2 value added Summary Report (KS12.VAExp)

Statistical significance tests have been performed on the data using a 95% confidence interval and, where the school value differs significantly from the corresponding national values for this group, it is highlighted in green (sig+) or blue (sig-).

	Number of pupils in latest year	Value Added						Value Added by Subject 2015

## Key

 School performance is significantly higher than the national VA figure for this group

 School performance is significantly below the national VA figure for this group

From 2012, the methodology for calculating the pupil group confidence interval changed to take into account the range of scores for all pupils nationally rather than the range of scores in your school. Full details of the methodology used for the Value Added measure can be found in the Library.

The calculation of overall 2013 KS2 value added uses reading, writing (TA) and mathematics only. Details can be found in the RAISEonline library.

### Expected Progress - reading

Table 5.2.1: Expected Progress in Reading Key Stage 1 to Key Stage 2 - sublevel variation (KS2.EPR)

This table shows the number of pupils attaining each Reading Key Stage 2 attainment level and their corresponding Reading Key Stage 1 prior attainment, including sub-levels. These figures should be compared with the national figures provided in the Transition Matrices held in the library on the RAISEonline website.

Number of Pupils		Sub Level	Key Stage 2 Reading Level								Total No. of Pupils	Expected Progress			More than expected progress			
			Other or No KS2 Result	W	1	2	3	4	5	6		Number Achieving Expected Progress	School % Achieving Expected Progress	National % Achieving Expected Progress	Number Achieving More Than Expected Progress	School % Achieving More Than Expected Progress	National % Achieving More Than Expected Progress

Total Cohort of Disadvantaged pupils	16
--------------------------------------	----

Key

represents pupils making more than expected progress
represents pupils making expected progress
represents pupils making less than expected progress
indicates pupils whose progress could not be determined and who have therefore been excluded from the school calculation. These pupils are included in the figure for the total cohort

Full details of the methodology used can be found in the Library.

### Expected Progress - mathematics

Table 5.3.1: Expected Progress in mathematics Key Stage 1 to Key Stage 2 - sublevel variation (KS2.EPR)

This table shows the number of pupils attaining each mathematics Key Stage 2 attainment level and their corresponding mathematics Key Stage 1 prior attainment, including sub-levels. These figures should be compared with the national figures provided in the Transition Matrices held in the library on the RAISEonline website.

Number of Pupils		Sub Level	Key Stage 2 Mathematics Level								Total No. of Pupils	Expected Progress			More than expected progress

## Expected Progress reading, writing, mathematics

Table 5.4.1: Key Stage 1 to Key Stage 2 performance - percentage making expected progress, School and National (KS2.EPRS)

Expected Progress is defined as making 2 levels of progress from Key Stage 1 to Key Stage 2. Statistical significance tests have been performed on the data.

	Mathematics				Reading				Writing (TA)

Unclassified - Information Not Obtained	-	-	74	-	-	-	70	-	-	-	70	-

The definitions of low, middle, high are based on the Key Stage 1 results attained by pupils on completion of the key stage. Low attaining are those below Level 2 at Key Stage 1 (APS<12). Middle attaining are those at Level 2 at Key Stage 1 (12@APS<18). High attaining are those above Level 2 at Key Stage 1 (APS 18).

A dash means that no significance test has been carried out. A blank space means that a significance test has been carried out and the result for school or group is not significantly different from the national average.

## Closing the Gaps at Key Stage 1
